

FASCISM IN UKRAINE

Boris Ikhlov, secretary of executive committee of Russia political union “Worker”, member of trade union committee of Perm workers trade union “PEL”

I should like to stress: you had never seen such facts, except several cases, in Russia mass media, all of them are taken from Ukraine residents. May be, some references are not active now.

On the 31 of December 2017 the Ukrainian fascists again bombarded the peaceful quarters of the Donbas. Children, women, old people died again.

Do you know what does bourgeoisie liberal media write? That Ukrainian army can't bombard civilian district because there are no rebels, “separatists”, civil guard. So (!!!) bombards are actions of civil guard. Now all Europe and America believe that Russia and civil guard soldiers bombard common people. Though there is no any proof. But why liberals kept silence in that period when civil guard hadn't artillery, rocket launchers "Grad" (hail), "Hurricane" and when Ukrainian army bombarded Donbas towns with artillery, rocket launchers "Grad", "Hurricane", especially “Tornado” and from military airplanes? Do you know that “Tornadoes” are equated to tactical nuclear weapons?

Hatred of the Russian is a common feature in all former Soviet republics. Liberal reforms brought down the economy of these countries. Due to Eltsyn-Putin liberal reforms Russia lost about 30 millions lives, due to similar reforms Ukraine lost more than 10 millions lives. So the governments of i.e. Georgia, Latvia, Lithuania, Estonia, Ukraine are channeling discontent of the masses in the chauvinistic direction, into the mainstream of hatred against “Russian invaders”. In 24 years Kiev lies that hunger in 1932-1933 affected only Ukraine. So the main slogans of maidan in 2014 was “Kill Russians and Jews with knives!” or “Hang Russians on the gallows!” (Москалей и евреев – на ножи! Москаляку – на гилляку!)

Detachments of fascist Banderovites appeared in the Ukraine in 1991. NATO instructors trained these units. Thousands of torchlight processions with portraits Bandera, Shukhevych and other took place in Kyiv, Kharkiv, Lviv and in other Ukrainian cities long before the Maidan in 2014. Bandera "Right sector" managed Maidan.

The US State Department has invested \$ 5 billion in the Maidan from December 2013 to February 2014

Mossad and IDF helped fascists-Banderovites on maidan. Israel's ambassador in Kiev hosted Yarosh, leader of Ukrainian fascists, leader of “Right sector”. Ukrainian oligarchs, Ukrainian rabbis supported the Nazis too.

Now we see results. Today Yarosh and other fascists are deputies of the Verkhovna Rada, with others, who killed citizens in Donbas.

December 19 adviser to the head of the Ukrainian KGB Markiyan Lubkivsky proposed the creation of ghettos in Donbass – to prohibit people of the region to travel from it to Ukraine.

“One needs to kill the residents of Donbas with atomic weapons”, – Yulia Tymoshenko suggested.

“... Education and culture will belong only to the titular nation, not pigs who speaks cattle’ Tatar-Mordvin. In a democratic Ukraine, every true patriot will have slaves. Let trashy cattle works, because Russian is not a man ... He can live only to work on his host - Ukrainian. If he does not want to - then dog's death for dog! Russians must earn their right to live among us to a good work ... ” This is an appeal from Lviv-city candidate from UNA-UNSO A. Shkil, his speechwriter - Tatyana Chronovol, 2002. UNA-UNSO is Bandera military organization patronized NATO’ instructors. UNA-UNSO became a part of "Right sector". Tatiana Chornovol’ said her appeal throwing arm in a Nazi salute. She was the Commissioner of the Ukrainian government on anti-corruption policy from March 5 to August 2014. Since the beginning of September she is advisor to the Ministry of Internal Affairs of Ukraine Arsen Avakov. On November 27, 2014 she became People's Deputy of the Verkhovna Rada of VIII convocation of the party "Popular Front". She is editor of the portal "Left Bank".

It was first period.

Continue the list.

In Kharkov-city, the Nazis killed an elderly uneventful woman, Mary Blomerius, only because she was one of the leaders of the antifascist Resistance.

In Kiev on Independence Square Nazis killed boys of "Berkut" with hunting rifles and burned them with the help of Molotov' cocktails, boys of "Berhut", who had no weapon and who had no right to answer blow for blow.

Ukrainian Nazis tortured people, breaking their fingers phalanx for phalanx and driving needles under fingernails, in the basement of Kiev mayor's office, and then demanded to save the fact of torture in secret.

Kiev' Fascist Paruby hired snipers to shoot back of boys of "Berkut" and of the participants of Maidan on Khreschatyk-street, and then took out sniper rifles under the guise of a deputy.

Bandera fascists shot 8 buses with unarmed Crimeans, that returned home from Anti-maydan meeting in Kiev, and then shoot people who ran away in panic, fascists shoot them like rabbits.

Nazi methodically, bone for bone, broken hands of Kharkov-city' Major Zakharchenko who was severely wounded on the battlefield and was captured.

Fascists scored with bits to death Vladimir Zakharov, a computer engineer in the office of the Party of Regions, only for the fact that he asked in Russian to release women, and fascists burned the second technique of subservient in the basement.

The Nazis handcuffed Lutsk-town' Governor Alexander Bashkalenko and poured him cold water on the frost for refusing to kneel down.

The Nazis demolished monuments to heroes of the Great Patriotic War.

Fascists gouged eyes of prisoners, behind the scenes of the Maidan, under the careful supervision of physicians.

One fascist young woman tearing nails of journalist Sergei Rulyev with pliers.

Fascists released from prisons convicted felons-racists and gave them authority "national teams." Nazi authorities sent out Sonderkommando team with peaks, axes and bats, and then with firearms, in the cities where anti-fascist protests were going - to suppress and to punish.

Kiev' Nazis in power, without hesitate, openly talk about the separation of the people of Ukraine on "grades" and about introduction of "national-proportional" quotas, and prepare laws banning Russian language much more than before.

In Nikolaev-city visitors-gunmen shot pro-Russian protesters, 11 wounded, people said that they have died for their native language.

In Odessa-city a large landing troop of militants of "Right Sector" beat people that were with Russian ribbons.

In Kiev, armed to the teeth "hundreds" of Nazis from "Right sector" and other "heroes of Maidan" beat people that were with Russian Guard ribbons.

In Chernihiv-city Nazis beat chap only for the fact that he was talking on a cell phone in Russian.

In Kharkov, in the evening on April 1, about 19-30, 68-year-old employee of the 11th clinic situated on Tractor-builders-street, 105a, came out and went to the store "ATB".

By purchasing products, she proceeded home. This woman, a regular participant of anti-fascist meetings, was met on the steps of clinics by about 15 young aggressive people. Thugs forced her to sing the national anthem and shouting "Glory to the heroes" (Bandera slogan) and "Death to enemies". Grandma told them that she doesn't know the full text of the anthem, then she immediately got a heavy blow to the nose from one youngster. All Bandera fascists immediately joined to beat felled woman by legs. Passers-by who saw it, called the police, but the police for some reason did not come. As a result, the woman was taken to the 4th ambulance with multiple injuries, including a broken with kidney and a broken nose.

Etc., etc.

Is it fascism? This is fascism!

Then Kiev began anti-terrorist operation (ATO), it was the **second period**. People from anti-fascist resistance, civil guard, for no reason were called terrorists. And then ALL people of Donbas was called terrorists.

Then Ukrainian army received Slavyansk, Kramatorsk towns, and there were the killing of civilians in Slavyansk, Kramatorsk, Red-Army-town, and other towns.

In the Rivne region 100 Bandera bandits raided the village <http://www.pravda.ru/news/world/formerussr/ukraine/09-05-2014/1207396-nalet-0/>

May 2 in Odessa, Bandera thugs burnt, killed by torture, hounded, shot more than 100 people.

May 9 in Mariupol, Bandera thugs burnt and shoot policemen with civilians, including a child.

May 25, Slavyansk. Later in the afternoon Ukraine army conducted direct fire on the city. The fire was on the "sleeping area" - the village Artem. There was no military installations and it was well seen from Karachun-mountain where howitzers and mortars were thrashed. "

In Donetsk, Putilovsky bridge was blown. Precision Machinery Plant was blown. Children' Hospital was fired, else Putilovsky market and most of the Kiev' and Kuibyshev' districts, close to the airport. The bus with wounded was set on fire by a grenade and then shot. At the headquarters of the anti-fascist resistance (civil guard) citizens brought hundreds of dead, many more wounded, especially the civilian population. In Slavyansk fascist shelling destroyed a children's clinic, orphanage "Sail of Hope". There was a fire in one of the shops of Heavy engineering plant, five civilians injured five. High Voltage Research Institute was destroyed.

Ukraine soldiers will receive land for the killing of Donbass punishers, as Wehrmacht soldiers. Officers will get apartments in the center of Odessa. Ordinary soldiers, immigrants from Galicia and the recent Kiev criminals will get land in a villa close to the town and countryside. Bandera snipers are negotiating amounts for the wounded and dead. For bearded one gives more - wounded are kept in captivity to his beard grown. Ukrainian Oligarch Kolomoysky gives \$ 1 200. Corpses cost from \$ 800 to \$ 1,000. One plans the relocation of 250,000 residents of Western Ukraine in the south-east.

Pentagon sends military advisers to Ukraine.

Ukrainian army bombed Slavayansk with prohibited phosphorus bombs. In Krasny Liman-city Bandera soldiers forced people at gunpoint to feed and water the occupants. Robbery and violence flourishes. Ukrainian Nazi National Guards rape local girls. Bandera soldiers grab people on the streets and pushed into the ambulance. Then one sells organs of these people.

Bandera soldiers shoot those soldiers from Ukraine army who refuse to fire on the people.

Then there was the third period, after election campaign in Ukraine.

November 6 was marked by sharply increased attacks by punitive. One shell fell on the school sports field in Donetsk, where nine children played. Two children were killed, four children were injured.

Punishers of the Bandera National Guard made more than 800 rapes in Mariupol. The number of rapes committed by Ukrainian "guards" in Mariupol, only for the last month (October) exceeded two hundred. In this case, according to local residents, not all statements of the victims are registered - the police simply refuses to accept them. It was reported online edition [Ukraina.ru](http://ukraina.ru). Data on 800 rapes were announced at a meeting in the city police department. There was also raised another problem: people is constantly missing the city, including women. Local resident Igor Lyutikov told: "The girls were at bus stops, and then people in the form of Ukraine army or National Guard pushed them in their cars, dragged them to cars and taken to an unknown destination. Some of them never returned." Men are missing too. But the police does not respond. ... Those are behind bars now who somehow got on the photo or video during the anti-fascist demonstrations or anti-maydan shares that took place in the city." <http://e-novosty.ru/каратели-из-нацгвардии-совершили-..>

Ukrainians, to opinion of Maria Kalyada, mortally hate ALL RUSSIANS.

23-year-old citizen of Russia Maria Kalyada was recently exchanged for Ukrainian prisoners of Donetsk and returned to Russia. In an interview she told that she had to endure in the Kiev prison. Maria admitted that she was brutally beaten as Ukraine KGB as cellmates who are forced for years to watch Ukrainian television. "I've seen people with scorched soldering iron inscription "SEPR" - "separatists" on the chest, with broken hands, feet, on which there are traces from hot rods. This experience greatly changes the view on the life. Otherwise, you start to treat your own country and its politics. On the second day of my stay in prison, I wrote a will. I honestly do not think that will survive. Everybody there mortally hates Russians. And in general, all, not only Russians. Even Ukrainians. 50-year-old woman, Ukrainian, Ira Poltoratsky, with bound hand and foot, with a bag over his head, six days was carried in the trunk from the Donetsk region to Kiev, to prison, "- said Maria. Maria Kalyada was arrested on April 8 in the Kherson-city region on suspicion of espionage and sabotage activities.

What torture do Ukrainian fascist punishers practice with population of Donbas and anti-fascist soldiers? The commander of one civil guard group "RRT" Alexander Bednov (he is killed now) told: "One man of my unit was in the thrall of "Aydar" for one and half weeks. Nazis (German) have a rest and nervously smoking in aside, looking at such picture. Bandera Nazis at first cut off the index fingers of his fighters, then - the torture and execution. Yevgenii (our warrior) told me that he was put a special bandage on head and neck. And he had to stand on his tiptoes. If he fell at full stop, the nodes of the dressing broken neck vertebrae. Yevgenii once stood for 5 hours on some fingers. He says that the first 4 days were more clung to life, but bullying, torture, beatings, which goes beyond all limits of human understanding, was such that he had asked his tormentors to shoot him. There was one Nazis which said: "No, bastard, it will be too easy way out for you." And the torture continued. Then he was lucky. He escaped from captivity, when there was a blow on the basis of "Aydar" and the pit where he sat was struck and destroyed.

Particularly terrible fate awaits those who by the will of fate was born a woman. Almost all girls and women, before die, suffer more because of most severe sexual abuse. "Or another case. 18-year-old girl who only fed civil guard, after two days of rape was just shot. Nazis cut off hands of fighter-sniper, it was in Novosvetlovke-village in front of people. And it is practiced: Nazis tied hands of fighters of civil guard to the opening of the exhaust pipes of tanks and enclosed the gas. After a few minutes one can see charred stumps instead of hands. Bandera Nazis caught one of our spies and after several days of torture spy was tied to armored troop-carrier with legs and drove to the villages for the edification of all." Tragedy in Gorlovka - civilians were shot by "Grad" of Ukraine army. The Ministry of Defense of Donetsk republic said: "November 14, 2014, at about 18:00 in the direction of the city Gorlovka from Ugegorsk-town system "Grad" (hail) of Ukraine army began to work in a residential sector of the city. The result of a punitive action - 6 civilians were killed, including two children (a boy 4 years old, a girl of 9 years),

among the dead - father of the children, the mother in serious condition in the hospital, and about another 20 people injured - shrapnel wounds.”

And then the city of Gorlovka for a few days was fired from "Tornado"-systems, which equated to tactical nuclear weapons. Older participants in the 2nd World War said that even the Nazis did not so brutally shelled.

According to a report to the UN Children's Fund 44 children in Donbas were killed in shellings of Ukrainian army.

Triumph of Ukrainian democracy!

I want to emphasize once more that all the information is taken from the people and media that are not controlled by Putin.

I'd like to explain: we, Marxists, began to write about fascism in Ukraine from the first days of maidan, two month earlier than official Russia media.

If it is not fascism, then what is fascism? However, for those who starved in the photo with a mountain of dead blacks under their feet - this is normal. For those who destroyed the civilians My Lai - this is normal. For those who have kicked his foot in the stomach of Vietnamese captive - this is normal. For those who destroyed whole cities with napalm in North Korea - that's fine. For those who destroyed from the air kindergartens in Belgrade - this is normal. For those who shot from a helicopter unarmed Iraqis - this is normal.

Did you know that the Ukraine Nazis sent gifts mothers of the deceased civil guard fighters? These were the severed heads of their sons.

You see I may tell much more.

Now Kiev police is led now by follower of neo-Nazism, deputy and commander of the regiment "Azov" Vadim Troyan. The West suddenly noticed: people with openly neo-Nazi views will now be responsible for law and order in the Ukrainian capital. This was stated in the article published on the website of the German newspaper "Die Welt". Regiment "Azov" is well known for it's sadistic killings of civilians.

Nazi commanders of battalions today became deputies of the Verkhovna Rada. The president Poroshenko said that Hitler's accomplice Bandera is a national hero, and set up the birthday celebration of the fascist Bandera army UPA-OUN, October 14th. Recently Poroshenko said: "The separatists can not work, we will have a job, they do not, we will have a pension - they do not, our children will go to school, and their children will sit in basements.» - <https://www.youtube.com/watch?v=DVIDR9JSPFs>

In such a situation, Russian President Putin calls for a peaceful dialogue with the Nazis. And Europe does not want to understand, Europe ignores torch processions with swastikas and portraits of fascist Bandera, Shukhevych and Melnik nor the mass graves of civilians, that Nazis staged.

If anyone has forgotten.

From the list of "135 of torture and brutality used by terrorists of Bandera OUN - UPA to the civilian population in World War II": "Driving of a big and thick nail in the skull head. Stripping of head hair skin (scalp). Cutting eagle on the forehead, knocking out the eyes, nose, ears, cutting of everything. Penetration by sharpened thick wire through from ear to ear, cutting lips, tongue. Cutting the throat and pulling smth through the hole. Tearing mouth from ear to ear, cutting the neck with a knife or sickle.

Nailing by a knife to the table a child tongue, which later hung on it. Cutting the child with a knife into pieces and throwing them around. Unripping abdomen children. Hanging baby male genitals on the door handle. Knocking leg joints of child. Knocking joints of the hands of the child. Throwing a child in a flame of fire of a burning building. Breaking baby's head, took him by the legs and hit the wall or the oven. Planting child to count. Nailing a small child with nails to the door.” And so on.

You know that people in Donetsk and Lugansk regions voted for independence from Kiev on the 11.5.2014, more than 80% votes. People of these regions don't want to live in “unite” fascist Ukraine together with those who killed children, women, elders. Kremlin didn't support voting. Putin and other Russia oligarchs are afraid that their billions in foreign banks will be frozen.

Minsk treaties imposed Putin abolished the independent republics legally. Putin pushes back the rebellious districts in fascist Ukraine. Putin was able to impose such leaders to rebellious regions, Plotnitskii and Zakharchenko, which he can control. There is killing of warlords of antifascist civil guard in Donetsk and

Lugansk Republic, that don't support Minsk treaties and want to fight for freedom and independence from fascist Kiev. These murders are organized by Plotnitskii, Zahrachenko with Kremlin. The rebellion betrayed – this is the essence of the moment.

Today Moscow, Brussels, Washington act together to suppress the anti-fascist uprising in the Donbas. Russia mass media doesn't want to tell people about Hitler's henchmen Bandera, Shukhevith, Melnik, Stetsko. A year ago Russian mass media eliminated word “fascism” from their texts and speeches. On the other hand many nerds in Russia (and in Donbas too!) cry about “Russian world”. It means that hot friendship exists between Russian oligarchs with protege of the bourgeois class Putin and poor Russian workers, teachers, etc. Many doodles (and in Donbas too!) are sure (up to now) that there is socialist revolutionary in Donbas, that workers demand to transfer plants State. Of course, a lot of miners and other workers took weapon in their hands. But we see degradation of productive forces in all Ukraine (and Russia) during 24 years, especially now in Donbas. So workers now can't take over the management of the whole economy. On the other hand a lot of representatives of petty bourgeoisie, middle class and owners of middle enterprisers are fighting with weapon in their hands against Ukrainian army. And, of course, Marx, Engels stressed that nationalization doesn't mean socialism.

Military operations were partially suspended after Minsk. The rebels took heavy equipment back. Kiev is not pulled back heavy machinery. Kiev for the second time took the truce. The second time, Putin stopped insurgent troops when they attacked.

Kiev completely ripped Minsk agreement. No “special status” of Donbass, no Russian language and so on. Ukraine army is now preparing to unleash a new offensive.

Many Europeans have the illusion that Putin is opposed to the North American world policeman. This is not true. Putin is moving in the wake of Washington's policy. Putin delivers States engines for missiles. Also he signed an agreement to supply engines for the Antares. Do you know that Putin sent tanks, canons, etc. from Crimea to Ukrainian Nazi punishers? Do you know that Russia provides Ukrainian Nazi punishers by motors, lubricants for tanks and other armored vehicles, by military trucks, parts of military helicopters, money through bank military loans and even stew?!

Such spicy picture: Kiev (and the whole world!!) announced Russia as aggressor and requires from aggressor benefits to gas!

We see that Kiev is ruling from Washington. One needs to understand that the uprising in the Donbas is part of the anti-fascist uprising in the world against the United States, like Argentina in 2001, Venezuela, Bolivia, Nicaragua, Brazil, etc.

Look at it

Forth period.

Ukrainian army regularly are firing cities and villages in Donbass. Still children are dying. Kremlin keeps silence. Russian secret services eliminated most prominent commanders of civil guard (home guard). Still Ukrainian soldiers mock and kill residents in occupied cities of Donbass. Moscow, Kiev, Washington, Brussels are together against antifascist rebellion in Donbass, they together strangled it.

Poroshenko did birthday of fascist Bandera army OUN UPA (1939-1945) Ukrainian holiday and gave Banders the title of hero of Ukraine. When Haider questioned whether all was horrible in fascism, shrieking stood all over the world. Now all the world keeps silence, and Putin continues to push Donbass into fascist Ukraine. Though USSR lost 18 million lives in fight with Hitler and Bandera armies.

Europe and America believe, that fascism suddenly disappeared in Ukrainian after so called legitimate elections, that there is no fascism in Ukraine yet, that all fascism was concentrated in such troops as “Azov”,

“Right sector”, etc. only. May be, soldiers of Ukrainian army don’t cry “heil” and so on as neobanderas troops. But they similar kill civil people, including children, women, old men, so they are fascists too! Plants that create weapons for Ukrainian army to kill children in Donbass are fascists too! Do you know that many ordinary Ukrainians call Russians insects, subhuman? Do you know that a lot of Ukrainians regularly cry “Ukraine uber alles” (Україна понад усе)?
