To suppress a peaceful demonstration in Los Angeles in 1992, 9,000 police officers, 10,000 National Guard personnel, 3,300 U.S. Army and Marine Corps, 1,000 FBI officers, armored vehicles, combat and police helicopters were deployed. Fire was launched to kill, 50 to 100 people were killed, more than 11,000 people were arrested. About 500 people from the number of detainees received from 25 years and up to life imprisonment. There were no complaints from the UN and the international community. Officials guilty of using force against peaceful demonstrators were not punished.

US police regularly kill civilians on the slightest suspicion of having guns, even children with toy pistols. The American court is usually on the side of the police. US police regularly beat detainees.

Let me remind you: during the Second World War, the United States supplied Hitler with strategic goods.

More than 2 million people killed in US terrorist operations in the Middle East.

Over 12 years of US military operations in the Middle East, 1.3 million people were killed there. This is the number of victims in only three countries - Iraq, Afghanistan and Pakistan, according to a report by the international organization Physicians For Social Responsibility ("Doctors for Social Responsibility"), which received the Nobel Peace Prize in 1985.

In Iraq during the American military operation killed about a million people, about 5% of the country's civilian population, 220 thousand people who died in Afghanistan and 80 thousand in Pakistan. The organization notes that these figures do not include the death toll due to the joint operations of the United States and its allies in Yemen and Syria, so the possible number of victims will exceed two million.

In addition, the report noted that approximately 3 million residents of Iraq, Afghanistan and Pakistan fled the country after the NATO bombing.

“The figures obtained are approximately 10 times higher than those provided by official statistics and operated by the main media and experts,” the report says. For example, Yakov Kadmi calls the figure of the dead Iraqi people at 200 thousand.

In 2001, an American journalist Z. Grossman published the results of his study of US military interventions from 1890 to 2001 in the archives of the Library of Congress. For 111 years, the American highest race has organized 134 military conflicts, 1.15 aggressions per year. During the Cold War - 1.29 aggressions per year, after the fall of the Berlin Wall - 2 aggressions per year. Only after World War II, the United States overthrew 50 governments that it did not like.
