

FORECASTS ARE NOT NEEDED

I have already made a forecast of what will happen to the economy of Ukraine when fascism wins there. The forecast was fully justified – the economy collapsed and can no longer rise.

As for the United States, there could be nothing else. The population agreed with the bombing of kindergartens in Belgrade, killing half a million civilians in Iraq, the illegal invasion of Afghanistan, in the dispensation of the humanitarian disaster in Libya, with the outbreak of war in Syria. The US population was in accordance with lies about the terrorist attack of September 11, with lies about the chemical weapons in Iraq, with lies about poisoning Skripals, Navalny etc., with lying about doping Russian athletes, that Russia shot down Boeing etc. Americans seriously believe that it was Putin who elected Trump!

The United States is a country of snitches, denunciations of children against their parents are the norm. The United States is a country that spreads pederasty, LGBT, fascist juvenile justice, Hollywood, degenerate feminism and other shit around the world.

Biden declared the Republicans terrorists, although those who came to the Capitol only broke one window and scattered papers on the floor. Biden did not call terrorists those who set fire to buildings in several cities, who humiliated, beat, and killed whites.

A police officer killed Ashley Babbitt, a US Air Force veteran, a Trump supporter – but for Biden, this is not terrorism.

Now the whole world knows that there is no freedom of speech, which Washington has promoted in other countries, in the United States itself, no matter how Zuckerberg, Twitter's main owner Ed Williams and other bourgeois explain their severe censorship. In fact, Zuckerberg gave away a secret: both his Facebook and democracy are private property, that is, it does not belong to everyone, it belongs only to the rich.

Now the whole world knows that there is no justice in the United States, the courts brazenly refused to consider evidence of election fraud.

2nd Amendment to the U.S. Constitution: the people have the right to rebel, with or without weapons, against their government.

The Democrats openly violated the Constitution.

The world should have paid much earlier attention to this obvious fact: after all, Barack Obama was elected president illegally, he was not born in the United States.

Now the whole world knows that there are no free elections in the United States, the election commissions brazenly, openly rigged the elections.

The only difference with Russia is that in Russia exactly the same brazen falsifications of the ruling «United Russia» party in the elections are hidden, and in the United States the court does not notice them.

Now the whole world knows for sure that bourgeois parliamentarism is a deception of the working people, letting off steam.

Only Americans can't understand that the whole world is sick of Biden's condescending smug face.

Only Americans are not able to understand that the Vice President of the United States is a dirty woman.

Only brainless Americans consider Sanders and his ilk leftists. Even Trump called the bourgeois Democratic Party communists.

Only Americans can consider a lie to be true for decades.

The US lied about the Russian vaccine under Trump – the US continues to lie about the Russian vaccine under Biden.

Let's show that Americans are a deranged, mentally retarded nation.

One guy on Facebook, judging by the photo of 30 years, wrote to me: "Trump wants to kill us all, vote for Biden!" To my innocent question, does Trump really want to kill everyone, guy "answered" the following: "And how do you deal with corruption in Russia?!»

US GDP in 2017 – \$ 19.5 trillion, in 2018 - \$ 20.6 trillion, in 2019 - \$ 21.4 trillion. Impressive growth.

The unemployment rate in 2013 was 7.3 per cent.

In 2017, 2 million new jobs were created in the United States. In 2017, the wages of Americans increased by 2.5%, the unemployment rate – 4.1%, the lowest figure in 17 years.

The unemployment rate in 2018 – 3,7-3,9%, in 2019 – 3,5%

But Democrats scream that Trump is a monster! And the Americans believed and believe.

Biden's son is a drug addict, performs sexual acts with minors, the tax service was interested in his machinations with foreign transactions.

When Biden was asked about his son, he didn't even make excuses. What for?? He simply cut off the questioner: "Change the record."

Now the liberal American press in every possible way whitewashes the scandalous reputation of Biden's son. He is exposed as an unrecognized genius, an artist with an unusual talent and vision of art. Yes, journalists write, Biden Jr. is a man with oddities, but he, like many creative personalities, suffers from a lack of understanding of society.

At the same time, the Democrats launched an attack on those Ukrainians who published information about Biden's dark deeds.

Democrats lie that the provocation with the Capitol was arranged by Trump (and only to make a gift to Putin) – and Americans believe.

If earlier the image of an external enemy in the face of Russia served Washington to consolidate the bourgeois and working people inside the United States and consolidate the EU with the United States, now the Democrats use the image of an external enemy to denounce a competitor.

When the Democrats did not recognize the victory of Trump and began a color revolution, Merkel, Macron and others kept quiet in a rag.

When Republicans, angry about the election fraud, took to the streets, Merkel, Macron and others announced that the Republicans had attacked democracy.

And if Merkel, Macron and other bastards congratulated Biden before recognizing him as president, and then condemned the protesters at the Capitol, the whole world now knows for sure: Merkel, Macron, etc. are corrupt bastards.

You will laugh: the German Foreign Minister blamed Trump for inciting an "attack" on the US Congress.

Hitler accused the Communists of setting fire to the Reichstag.

Democrats provoked an attack on the Capitol and blamed Trump.

Democrats have legalized black fascism, pogroms and violence. But now they are in power. The Negro has done his work – the Negro can go. Democrats no longer need the Black Lives Matter movement. Now the leaders of the movement are quietly removed, their corpses are found with several bullets in their bodies. Ahead of the US population is a tax on white Americans in favor of blacks, quotas for representatives of minorities in the management of companies and in legislative bodies, allowing gender change for children and adolescents.

Republicans are already being fired from their jobs. Wait, soon the states will begin to make lists, limits, as in 1937 in the USSR.

But I don't feel sorry for the Americans. They deserved it. I am glad that the old senile was elected. The people deserve their rulers.

Vice President Mike Pence refused to apply the 25th Amendment to the Constitution to remove Trump from power.

Trump's lawyer Lyn Wood posted to Parler: "Over the next 10 to 14 days, you will learn shocking information about many of our government officials and elites.

Child trafficking for sexual exploitation and pedophilia is a worldwide pandemic.

The published materials will concern Joe Biden, Barack Obama, Chief Justice John Roberts, Hillary Clinton, Nancy Pelosi, Mike Pence, Jeffrey Epstein, Bill Gates and thousands of others. I've seen the evidence. That's convincing. Truly, this is a battle between good and evil."

Assange was jailed for this and Epstein was killed.

The soil of the Democrats' provocation is a spontaneous protest against the completely shameless behavior of the elite, against the obvious falsification of elections.

It is good, of course, that America has finally looked in the mirror.

The wolf had lost the sheepskin, many people had lost the veil from their eyes.

However, the motivation of Trump's supporters is weak, this is not the motivation of the residents of Donbass. Except for the discontent that their votes were stolen, the Republicans have nothing. Trump is not Luis Corvalan, Salvador Allende, or even de Gaulle.

A number of Republicans have their own presidential ambitions, they were happy to bring down Trump at the hands of Democrats. But this is a small thing.

In the modern era, a special layer of the super-rich has emerged in the ruling class of the bourgeoisie, with a fortune of over \$ 100 billion.

The insignificant half-educated Elon Musk was a Trump supporter. But Musk is worth a mass. The occasion presented itself - Trump withdrew from the Paris Agreement, and Musk withdrew from the ranks of Trump supporters. And then he was accepted into the club of the super-rich, his fortune increased to \$ 200 billion.

In 2009, David Rothkopf published a book called "Superclass. Those who rule the world."

Superclass, in 2002 Mason proposed the term NVC, the new upper class. Otherwise - bobo (J. Brooks: bourgeois bohemians - "bourgeois bohemia"); superclass (overclass as the opposite of underclass, M. Lind); hyperclass (J. Attali), hyperbourgeoisie (D. Duclos). Lash described the formation of the NVC as an elite uprising. This subclass consists of only tens of thousands of people. Rothkopf writes about 6 thousand.

There are a lot of people who are crazy about world government, but this is what Rothkopf himself writes in his book: "Until the end of the 20th century, the governments of the great powers provided most of the superclass, accompanied by several heads of international movements (i.e. the Pope) and entrepreneurs (Rothschilds, Rockefellers). And leaders in international business, finance, and the defense industry not only dominate the superclass, they move freely to high-level positions in their governments outside the sight of elected legislatures (including the U.S. Congress)."

First, all bourgeois governments are only engaged in ensuring the interests of the ruling class of the bourgeoisie, first of all, the richest. Because these governments are set up by this class, democratic elections of heads of state are just a decoration.

Second, Rothkopf writes stuff: leaders in international business and its representatives of the superclass and dominate themselves can't.

Third, there is nothing special about the formation of the NVC, it reflects the tendency of capital to centralization revealed by Marx.

Finally, Rothkopf writes about the ever-decreasing role of national governments – but this is not new, Marx pointed out that the development of capitalism breaks national borders. At the same time, the process is far from complete, China and India are quite large players who can afford to ignore the entire superclass as a whole.

Americans and super-billionaires consider the country their property. The Holy Trinity, Soros, Buzos and Bill Gates, came to power, and they came for a long time. One could say that those billionaires, like Trump, who wanted to push this system, were defeated.

But everything is not so primitive. Once Theodore Roosevelt came to power on the slogan of supporting the petty bourgeoisie. But the big bourgeoisie paid for his election campaign (as well as Trump's 2016 campaign).

As for foreign policy, it is clear that Biden is unlikely to deviate from the Trump line. Sanctions against the Russian Federation will be strengthened, Washington will confirm the withdrawal from the INF Treaty and START-3, the United States will not return to the WHO, Unesco and the Paris Agreement, the confrontation with China will continue. As under Obama, new wars will begin.

Is Biden waiting for the fate of Poroshenko? Maybe, but it doesn't matter. His age is much more important: it is like the age of the members of the Politburo of the Central Committee of the CPSU before the collapse of the USSR.

By the way, why are American men not allowed in women's baths?! Disorder! Intolerance! Sexism!

And why the White House?! Urgently renamed the Black house, and Negroid race – in afroamericanos race.

Down with the racist Mayakovsky, Soviet poet! He wrote: «Why must a black Negro make white sugar?!»
