

WHO WON IN WORLD WAR II

US = fabric of dreams.

All of Europe celebrates May 8 victory over fascism.

The United States and Great Britain were in a hurry, so on May 7 in Reims, on the territory of France, an act of surrender of Germany was signed between the United States, Great Britain and representatives of Germany. From the USSR, the act was signed by Major General Susloparov, and he had not orders from Moscow to do this. However, on the act Susloparov nevertheless made a note that this act is preliminary.

After the signing of the act in Reims on the Eastern Front, fighting continued, Germany did not capitulate to the USSR, although on May 2 the Red Army took Berlin.

Moscow did not agree with the act signed in Reims; it stated that the act should be signed in the capital of Germany, Berlin. Not the USA and Great Britain took Berlin, but the USSR. Both US President Truman and British Prime Minister Churchill agreed! Finally, the act of surrender of Germany was signed on **May 9** in Berlin between the USSR and Germany.

Do not forget that the United States supplied Hitler with strategic goods during the war.

In all schools in the world, children teach that World War II began in September 1939.

But this is only the date of a small private event in World War II, this is the date of the German attack on Poland. The Poles privatized the start of the war.

But this is only propaganda nonsense.

1935 - Mussolini's attack on Ethiopia.

Anti-Comintern Pact, Japanese-German agreement on defense against communism”, conclusion date - November 25, 1936. The pact was not concluded against Poland, the USA or Great Britain. On the contrary, Poland intended together with Hitler to attack the USSR and already planned what territories of the USSR it was occupying.

July 1937 - Japanese attack on China.

In March 1938, Hitler brought in army to Austria.

In 1938, in Munich, an agreement was signed between Britain, England and Germany on the exclusion of the Sudetenland from Czechoslovakia in favor of Hitler. Hitler not only captured the Sudetenland, he occupied all of Czechoslovakia. And Poland participated in this expansion of Hitler!

Poland in October 1938 supported Nazi Germany in territorial claims against Czechoslovakia and annexed part of the Czech and Slovak lands, including the areas of Tesinska Silesia, Orava and Spis.

Thus, the start date of the Second World War is shifting - in 1938, in 1937, in 1936.

However, it doesn't occur to anyone to mark the beginning of the First World War on the day of July 28, when Archduke Ferdinand was killed, the war began on August 1, when Germany declared war on Russia and invaded Luxembourg.

The dates of the beginning of world wars correlate with the beginning of the most important events.

The capture of France by Germany cannot be considered a significant event in the war; France resisted for only 40 days.

The German attack on the USSR on June 22, 1941 was the most important event of World War II, it was the USSR that fought with Germany for 4 years, it was the USSR that crushed the Wehrmacht army. Therefore, the beginning of the Second World War - June 22, 1941. Hey rams, okay no?

The States is treating the world's population totally. Billions of dollars, including in Russia, are left to the creation of myth, that the USA had won in World War II, not the USSR.

Of course, the US lend-lease supplied the Soviet Union during the war. But not free of charge. For gold. They put a paltry 4% of that produced the Soviet Union to the war. Moreover, bad technique and bad food. But much more: during the war the United States (Ford and others) provided Hitler fuels and lubricants, equipment and weapons!

Soviet Army destroyed 607 enemy divisions, Allied forces - only 176 divisions. According to other sources the Soviet Union destroyed even more - 80% of all divisions of the Hitler' coalition. And if fierce battles were on the Eastern Front, whole battalions of fascists gave up to every drunk American rider on the West.

Thus, we can say that the United States does not substantially participate in the struggle against German fascism.

Let's see how the world was organized in 1945 and how it has degenerated.

In May 1945, May 1994 and June 2004, the Institute of Public Opinion Research of France spent three sociological survey among residents of their country, repeating the same question: "How do you think - what country has made the

greatest contribution to the defeat of Nazi Germany?" Below we see how decades were changing perceptions of French people about the price of victory in the Second World War:

1945: 57% - the Soviet Union, 20% - US 12% - France, number of bump against people - 32%.

1994: 25% - the Soviet Union, 49% - US 20% - France, number of bump against people - 69%.

2004: 20% - the USSR, 58% - United States, 20% - France, number of hit hard people - 78%.

We see that the degradation of the French population is the function that almost strictly increases linearly with time argument.

Who did play a key role in the victory over Nazism in World War II? Only 15% of respondents chose the USSR. Five responses were invited: the United Kingdom, the Soviet Union, the United States, or others or option "do not know". These are data from a survey of the International Project for the Study of Public Opinion SATELLITE. Opinions. According to the survey, the majority of the US population (79%), France (58%) and half of Germans (50%) believe that leadership in the victory over fascism belongs to the US Army. 59% of UK residents believe that their country is a leader in the fight against Nazism. 11% of Britons believe the key role belongs to the US, 15% - to the USSR. Data were obtained through a survey conducted by the French research company Ifop and the British company Populus commissioned by Information Agency and Radio Sputnik.

Of course, Russia is the capitalist country as well as USA, Germany, UK, France, Italy, Japan etc. But Russia didn't bombard kindergartens by shells with depleted uranium in Belgrade, Russia didn't kill a half of million people in Iraq, Russia hasn't arranged a humanitarian catastrophe in Libya, Syria. Not USSR, but USA soldiers (with Rambo at the head) executed more than a million inhabitants in two months of occupation of North Korea. Hitler did not dream about such scale.

Not Russian, but American occupiers (with Rambo at the head) conducted medical experiments on captured Vietnamese, like the Nazi doctor Mengele.

Yesterday the world's population believe in ethnic cleansing in Kosovo, arranged by Milosevic. It believed in the barbed wire and watchtowers. It believed in the myth of Srebrenica. It believed in the "revolutionaries" in Libya, believed in the "revolutionaries" in Syria.

Today the world's population believes in aggression of Russia in Ukraine, though Kiev demands from Russia aggressor discounts on gas, and Russian state banks pay money for Ukrainian military operations in Donbass (Sberbank, VTB, VEB). It believes in the capture of the Crimea, but do not want to know that 85% of the Crimean population voted for joining the Crimea to Russia. It believes that Russia is to blame for the accident with Boeing, though the Netherlands did not provide any evidence. It believes in totalitarianism in Russia, though the Kremlin is unable to establish a progressive tax.

All the world believes in the myth of the poisoning of the Skripal family, the myth of the doping of Russian athletes, the myth that Russia shot down a Malaysian Boeing.

They believe. Idiots.
